

NORTH SOCCER CLUB

MEDICAL POLICY

North Soccer Club has the following rules and guidelines concerning casts and medical issues:

NO HARD CASTS of any type are allowed for practices or games for the safety of our players. Players wearing casts may not participate in any NSC related competitive soccer activities until the cast is removed.

Protective braces worn after casts are removed, are acceptable practice and game equipment.

NSC is asking all players, parents, coaches, and managers to be considerate of sickness/illness. If a child or an adult is sick, we ask that you show consideration and keep yourself and/or your child away from practices and games until your health improves.

It is the parents' responsibility to inform the team Coach and the NSC board of any illnesses, allergies, or other medical conditions their children may have.

Sincerely,

NSC Board of Directors
