

NORTH SOCCER CLUB

ROSTER & ROSTER CHANGES POLICY

The North Soccer Club Board of Directors determines the placement of the players and the make up of the Team Rosters for each season/session. Such decisions will be made based on results from the Tryout Process and the Coaches Rating sheets.

All rosters are final. The Board of Directors is the only entity authorized to put together Team Rosters and/or make changes to existing Team Rosters. Alternates are available for Indoor games only as per the Alternates Policy. **NO ALTERNATES ARE ALLOWED FOR FALL OR SPRING BAYS ROSTERS.**

New players may be added to team rosters upon authorization by the club Board of Directors but only after all required forms, and fees have been submitted.

Additional players may be needed to fill out a roster or replace departing players. They may be selected from a waiting list maintained by the club Board. If no players are available on the waiting list, other players may be invited to fill roster vacancies.

Players may not participate in any NSC team events, games, practices, etc. without the proper documentation being completed, and the roster changes being made and submitted to the proper authorities. Deviations from the above may result in game forfeitures by the involved team.

For indoor sessions, rosters are generally required to be turned in prior to the second game of each session. Please refer to each indoor location's specific rules.

For BAYS games, the club will submit team rosters by the established deadline. Coaches are required to bring two copies of their team roster for every game. One is for the game referee, and one for the opposing team coach.
