

NORTH SOCCER CLUB

PLAYING TIME POLICY AND PROCEDURE

The purposes of the North Soccer Club include development of youth soccer players, improvement of youth soccer skills, increasing interest in soccer, and improving the players going into our high school program.

Players learn by participating and remaining interested in the game.

While it is not possible to afford exactly equal time to all players on a team, every effort should be made to do so as per the following guidelines:

1. All players will participate in each game unless they are unable to do so.
2. Coaches may determine if players are physically unable to play.
3. U8/U9 players will play approximately equal time periods in each game unless they are unable to do so, and in different positions in order to develop their abilities.
4. U10 and U12 players will participate in each game and should be afforded the opportunity to play a reasonably equal amount of time, and in different positions in order to develop their abilities.
5. U14 and over players will participate in each game for a reasonable amount of time.
